Hearing of possible motion to approve amending
screening criteria to include criteria for items created
with materials from living or previously living species

General discussion w/ specific reference to :

- 1) Further craft - etched accept^{it} w/ provenance w/ particular
attention to exotic species, but, limited to exotic species
- 2) Imported items - etched accept^{it} w/ provenance w/
particular respect to accept^{it} and/or bills of lading in
deceptible form and in the English language and/or
accompanied w/ English translation. The St. Artists
Committee wishes to strongly discourage the use of
any animal derived item (eg. shells, dried animals,
teeth, teeth, claws, animal parts, skins and/or any
living or formerly living organism). The St. Artists
committee wishes to disseminate and share criteria
with regards to the above mentioned items.

10/25/07

3) It is strongly suggested that uniformity and identification with regards to receipts be firmly bound w/ respect to all crafts.

It is suggested that the above mentioned discussion be further considered by individual committee members, with further discussion to be conducted at a subsequent committee meeting.

Committee member Grant brought a production of street artists' work to the attention of the committee as a whole.

There being no further business, the evening and attendant discussion ended at 1300 hours.
